

BESPEAK PRESENTS:

# ronnieWRIGHT

**YES!!!** The soul crooner from Portland OR is back and ready to share his 2018 solo debut album a.k.a.BESPEAK! But lets not forget the year 2015, which marked a huge win for Ronnie and the music community of Portland. Ronnie's collaborative vision, entitled 'Bespeak Love' reached #1 on the UK SOUL CHARTS November 2015 and received artist of the year - (editors choice) from the highly recognized SOULTRACKS.com. Ronnie's vision would assemble some of Portland's phenomenal R&B singers as he assumed the role of executive producer, composer, artist and writer for several songs on the album, including "You Got Me" - Christopher Turner feat. Jarrod Lawson.

Ronnie's debut solo album a.k.a.BESPEAK is a continuum to Bespeak Love. Ronnie's latest album is his testimony of love & the various perspectives love plays throughout his life. His desire to give love away, greatly influences his creative language and purpose. His passion for music sparks a desire to honor the power of lyrics and tone, with substance, emotion, and a spiritual connection. Ronnie and his musical brother/partner Chris Turner (a prolific keyboard player and producer) created an environment of creative expression which allowed each collaborative artist the freedom to add their own ingredient and personality to each song, thus ensuring their passion for music would be truly felt! Chris, who has worked with Mike Phillips and Liv Warfield, thus performing on stage with Prince and Stevie Wonder, leveraged his relationships with phenomenal artist such as Chris Kee (Anthony Hameltons drummer), Ahji Love (Fantasias BGV), 7 times Grammy winner Phil Lassiter, Saeeda Wright and Ashley Jayy (Prince NPG) to lend their gifts on this project.

Ronnie's take on the word Bespeak is driven by the synonym to testify...  
"There is a desire for individual expression within each of us that BESPEAKS our persona, style, beliefs, and culture"... "ALLOW ME TO SPEAK"
